

MARIANA MARRUFO M.Sc.

Cybersecurity & Data Specialist | Security Operations, Automation & Analytics
MADRID, SPAIN | +34 691 517 382 | MARIANA.MARRUFO.E@GMAIL.COM
[LinkedIn: Mariana Marrufo Estrada](#)

PROFILE

Data Analytics and Automation professional transitioning into Cybersecurity, combining a solid analytical foundation with practical training in security operations, threat analysis, and digital forensics. Experienced in workflow automation, systems optimization, and data-driven problem solving. Adept at translating complex technical data into actionable insights to strengthen security posture, monitor environments, and streamline incident mitigation.

LANGUAGES

Spanish (Native) · English (C2 / Bilingual) · Italian (B2)

FEATURED PROJECTS

M-Labs DFIR: Cloud Forensics & Automated Micro-Triage Framework - Master's Capstone Project 07/2026

- Designed and validated an automated micro-triage framework (M-Readiness, M-Triage, M-Analysis) tailored for rapid incident response in Multi-Cloud SMB environments.
- Developed lightweight automation scripts to perform targeted live-forensic artifact collection from volatile sources, minimizing endpoint disruption and preserving evidentiary integrity/chain of custody.
- Simulated real-world corporate attack scenarios in controlled cloud environments, analyzing audit traces and log data to reconstruct adversary attack lifecycles and reduce triage time.
- Structured actionable technical deliverables and executive incident reports, translating forensic telemetry into mitigation strategies and executive decision-making.

Winner of the II Hackathon with EUDE Digital & Bizum

- Co-Developed a comprehensive Digital Marketing & E-commerce strategy for Bizum, focusing on merchandising and app integration.

EDUCATION

Master's in Cybersecurity SOC ATR – Code Space. Madrid, Spain. — 2026- 2027 | Master's in Cybersecurity and Digital Threat Management- CEREM. Madrid, Spain. — 2025- 2026 | Master's in Big Data & Business Analytics- EUDE Business School Madrid, Spain. — 2024-2025 | Master's in Management and Leadership for Educational Quality- Universidad Francisco de Vitoria. Madrid, España. — 2018-2019. | B.A. in Communication- Universidad Anáhuac México Norte, Estado de México, México. — 2016.

PROFESSIONAL EXPERIENCE

Customer Success Consultant | Zoombers. Madrid, Spain (remote) — 2026

- Led technical onboarding and platform rollouts for complex SaaS environments, configuring user workflows and delivering tailored training sessions for key stakeholders (school directors and faculty) to accelerate system adoption.
- Designed a multi-tier security & digital awareness campaign segmented by target audience (students, educators, administrators), establishing foundational educational tracks to mitigate human error and improve digital hygiene.
- Architected cross-platform automated workflows (n8n), standardizing operational pipelines, eliminating manual bottlenecks, and proposing continuous operational improvements.
- Built KPI tracking dashboards and analyzed system telemetry, leveraging usage patterns to evaluate client health, optimize platform performance, and support data-driven retention strategies.
- Conducted IP and network mapping analysis to troubleshoot platform connectivity, while standardizing internal process documentation, playbooks, and end-user technical guides.

COMPETENCES & TOOLS - Management & Consulting: SaaS Implementation & Onboarding, IT Project Management, Change Management, Stakeholder Engagement, Jira (Scrum), and Trello. | **Technical & Data:** Cybersecurity Awareness, Human Risk Management, Python, SQL, Power BI, Tableau, n8n Automation, and Advanced Excel. | **Communication & Quality:** Strategic Communication, Workshop Facilitation, Cross-functional Leadership, Technical Documentation, and Analytical Thinking.

CERTIFICATES - Cybersecurity: Introduction to Cybersecurity (LinkedIn, 2025). | **Tech & Agile:** Python Fundamentals (Platzi, 2023), Scrum (Platzi, 2023). | **Languages:** Proctor - TOEFL (2023).
